Can one of you take the lead on bringing the new DC liaison up to speed on Super Salvage?

Happy New Year! It's a new year and there are some familiar faces in different places. I'd like to take this opportunity to update you on the changes that have taken place in the Office of State and Congressional Relations. Cathy Libertz has been appointed Deputy Director of Land and Chemicals Division. For the next four months, I will be Acting Director for OSCR but will still continue handling any Maryland and general Chesapeake Bay issues.

Amie Howell has returned from her ELP Detail with the U.S. Forest Service and extended leave that followed. Amie is excited to be back and we are thrilled to have her back home at EPA. Amie will be reassuming her DE/ DC responsibilities. Welcome back Amie!

Sadly for us, Laura Mohollen's detail with OSCR ended and she has returned to HSCD after an exceptional job as liaison for a variety of states *and many simultaneously*. OSCR has lost a huge asset. Many thanks to Laura and best wishes for continued success! Luckily, Sasha Brown-Perry has taken over as the Pennsylvania liaison and Mark Ferrell and Matt Colip maintain their West Virginia and Virginia assignments.

For your convenience, please see the updated contact list below.

Linda Miller X-2068, Acting Director; Maryland/ Chesapeake Bay

Amie Howell X-5722, Delaware/ DC

Kinshasa Brown-Perry X-5404 , Pennsylvania

Matthew Colip X-5439 – Virginia

Mark Ferrell 304-542-0231 – West Virginia

Please contact us if we may be of assistance. Thank you, Linda
